Education

Nanyang Technological University, Singapore

Bachelor of Computing in Computer Science with a Second Major in Business

Jul 2023 – May 2027

CGPA: 4.87/5.00 — Dean's List

National University of Singapore

SUSEP Partial Exchange

Jul 2024 – Dec 2024

Experience

Mergers and Acquisitions Operations Intern - PwC, Singapore

Dec 2024 – Jan 2025

- Conducted buy-side due diligence for key targets in the SEA region, identifying critical value drivers and risk areas.
- Supported private equity buyers' investment thesis by analyzing growth opportunities, cost structures, and operational efficiency.
- Quantified synergy opportunities across technology and workflows, uncovering potential cost savings of up to 15%.
- Delivered actionable insights through detailed due diligence reports, enabling data-driven investment recommendations.

Full Stack Development Intern - DoozieSoft, Bangalore, India

Jun 2024 – Jul 2024

- Engineered a full-fledged temple management website using the PERN stack (PostgreSQL, Express, React, Node.js), registering over 2000 users and facilitating 500+ secure transactions through Razorpay with a 98% success rate.
- Designed and deployed 15+ microservices, reducing API response times by 40%.
- Integrated WhatsApp APIs for OTP generation and notifications, enhancing user authentication and engagement, along with automated audit logs and receipt generation for secure transactions.

Undergraduate Research Assistant - NTU, Singapore

Aug 2024 – Present

- Assisted in developing optimized deep learning models for novel view synthesis in medical volume reconstruction, focusing on improving current techniques to boost computational efficiency.
- Advanced research on novel view synthesis for medical volume reconstruction enhances 3D imaging techniques, enabling more accurate diagnostics, minimally invasive surgeries, and personalized treatment planning.

Peer Tutor, Statistics and Analysis - NTU, Singapore

Aug 2024 – Present

- Conducted weekly peer tutoring sessions for up to 80 university students, effectively simplifying complex statistical concepts to improve understanding and performance.

Software Engineering Intern - Excelsoft Technologies Pvt Ltd, Mysore, India

Apr 2022 – May 2022

- Collaborated with a team of 5 developers to design and deliver an employee attendance system, working closely with system engineers, QA, and testing teams.
- Developed a facial recognition system using PyTorch, integrated with the Django framework for seamless implementation.
- Utilised four Machine Learning models and frameworks; Implemented convolutional neural networks and deep learning algorithms to optimise the model

Phishing Email Detection using Machine Learning - NTU, Singapore

Apr 2024 – May 2024

- Designed a Machine Learning solution to accurately classify and detect phishing emails, providing practical insights to prevent individuals from falling victim to phishing attacks in real-world scenarios.
- Utilised Logistic Regression, Random Forest, GRU Neural Network and SVM machine learning models with the best-performing model having an F1-score of 0.97.
- The findings of this project have practical implications in real-world scenarios, where individuals can use the developed model to identify and avoid phishing emails, thereby reducing the risk of falling victim to cyber attacks.

Leadership & Activities

Analyst, Mergers and Acquisitions - NTU Investment Banking Club, Singapore

Aug 2024 – Present

- Performed valuation analyses, including comparable companies and transaction multiples. Utilized Discounted Cash Flow (DCF) models to derive intrinsic value, applying key metrics such as WACC and Beta.
- Presented M&A case assessments by developing business plans, performing strategic fit and financial due diligence, and pitching mock mandates to seniors for feedback. Gained hands-on experience with buy-side and sell-side processes.

Vice President, Academics - Machine Learning and Data Analytics Club, NTU

Jul 2024 – Present

- Spearheaded a series of workshops that covered the fundamentals of Data Science, progressing to advanced Machine Learning and AI concepts. Ensured high engagement and learning outcomes by curating practical, hands-on sessions using real-world datasets.

Skills and Interests

Programming Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, R

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, PyTorch, Flask

Frameworks: Microsoft Excel, Powerpoint, Tableau, AWS, React, Node.js, Django, Redux, Express, Material-UI, MongoDB

Business/Finance: NPV, IRR, MIRR, WACC, Equity markets, Bond markets, Portfolio analysis, Corporate Finance, Investments, Marketing, M&A, Bloomberg Terminal

Interests: Classical Piano - Trinity Grade 8, State Level Badminton Player, Chess
